Subject: New U.S. Patent Application of DAGBORN, H.
(Corresponding to: PCT/SE03/00390 (filed 10 March 2003; priority 11
March 2002))

Your Ref.: 110077502US/UDO/CAM; Our Ref.: 4448-17

Dear Mr. Petersson:

This will confirm that we have now filed the PCT national phase application of the subject application in the USPTO on September 13, 2004, together with a Preliminary Amendment and Information Disclosure Statement. Copies of the filed Transmittal Letter, Preliminary Amendment and PTO Form 1449 are enclosed with the confirmation copy of this facsimile.

In due course, we will provide a suitable inventor's declaration and assignment for this case. Ultimately we will receive a Notice to File Missing Parts/Notice of Missing Requirements setting a due date for filing the declaration (with a surcharge), but this due date can be extended if necessary. Please bear in mind, however, that according to changes in the U.S. patent laws, Applicant's delay in filing the Declaration more than 3 months beyond the date of the Notice will be used to offset a possible patent term extension due to prosecution delays by the US Patent Office. Therefore, please return the executed Declaration and Assignment as soon as possible. Facsimile copies of the executed declaration and assignment documents are acceptable.

The Information Disclosure Statement cites the prior art from the International Search Report and the Allen et al. and Badyal et al. references from the specification. Please provide us with a copy of SE 0102542-8 (from page 5 of the specification) and its publication date if you would like us to file a supplemental IDS.

It is **imperative** that your staff keep us promptly advised of all known "material" prior art. If such matters are not disclosed (a) within three months after filing, (b) before the first Official Action or (c) within three months after first learning of such information, an extra PTO fee of \$180.00 may be necessary. Please, therefore, provide us with copies of such information as soon as possible, so that we can, in turn keep the USPTO informed in a timely manner.

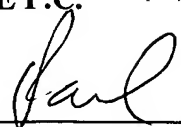

Mr. Göran Petersson
